

My role in the governing body is that of a parent governor and I have been in this position since 2014. I have two children within the school in both key stage 1 and 2. I am employed as a Social Worker within Durham County Council working with looked after children and care leavers aged 15-25 and children in need 16-18. This job is demanding but rewarding and I have been able to transfer many of my skills as I have taken on the governor lead for safeguarding.

I am passionate about my role within school and I am fully committed to supporting the management team, staff and pupils in ensuring the school continues to make progress and provide an enriching and positive environment for all. The decision to send my children to Aycliffe Village was one I took very seriously and seeing them thrive and grow each day is so important to me.

In my spare time I love being away in my caravan and spending time with family.
